

Alliance® High-Capacity Dispensing System

SIMPLY INTELLIGENT HIGH-CAPACITY

With twice the capacity of typical electronic towel dispensers, the Alliance® dispenser offers the highest capacity in the industry. Unlike traditional roll towel dispensers, the Alliance® dispenser's revolutionary design accommodates two full rolls of towels – up to 1,000' each – with no need to move stub rolls. The patent-pending and innovative electronic design automatically transfers to the second roll when the first is completely depleted, keeping high-traffic areas up and running while reducing maintenance. Combined with EcoSoft®, DublNature® or Artisan® Green Seal™-certified toweling, Alliance® offers a unique hand-drying experience superior to other systems in the market.

KEEPS THE BUSIEST AREAS UP AND RUNNING

The revolutionary design accommodates two full rolls of towel to keep traffic moving in the busiest washrooms. With double the capacity of typical electronic dispensers, Alliance® delivers up to 2,000 dispenses per service for fewer run-outs and maintenance visits. This is important in areas such as commercial offices, lodging establishments, healthcare facilities, colleges/universities, or any application with heavy traffic.

SIMPLY INTELLIGENT

An advanced patent-pending electronic system seamlessly transfers between rolls with no need to move stub rolls. When either roll is empty, the dispenser automatically transfers to the other roll. Maintenance is also a breeze. Simply replace the empty roll, and the dispenser will prepare the new roll then switch back to the smaller roll for optimum efficiency. Indicator lights for battery and product status eliminate guesswork and streamline maintenance tasks.

CUSTOMIZE FOR YOUR ENVIRONMENT

Alliance® is easily configured to meet the specific needs of your busy washroom with selectable dispense modes and paper lengths. Choose valet mode to automatically dispense a single pre-cut towel when a towel is taken, or select on-demand mode to present a towel with a wave of the hand. Towel length is adjustable to meet your preference and environment, and Alliance® can even be configured to be serviced from either side, maximizing the options for placement.

ADA Title III Compliant

Alliance® is ADA Title III compliant when installed according to the guidelines outlined in the ADA Standards for Accessible Design. Paper is easily dispensed with one hand, with less than 5 lbs. of force and without tight grasping, pinching or twisting of the wrist.

CAPACITY **ELECTRONIC** DISPENSING

Alliance® helps improve hygiene

TOUCH-FREE Touch-free operation reduces the risk of cross contamination since you touch only your towel

REDUCES BACTERIA Paper towels reduce the number of bacteria on hands, unlike warm air dryers which can increase and spread harmful bacteria in the washroom

HACCP The touch-free design supports the principles of HACCP (Hazard Analysis and Critical Control Point) as an important preventative measure in avoiding cross contamination

Alliance® is environmentally preferable

CONTROLS USAGE Metered dispensing of one pre-cut, pre-measured towel discourages waste

EFFICIENT OPERATION Alliance® dispenses up to 80 full rolls of 1,000' towels on a single set of 4 D-Cell batteries under normal conditions and usage. Environmentally preferable Fuji Enviormax batteries are included with the dispenser

GREEN SEAL™-CERTIFIED TOWELS A variety of 100% recycled Green Seal™-certified towels are available in lengths of 600, 800 and 1,000 feet

Alliance® controls costs

REDUCES WASTE Unique patent-pending automatic roll transfer utilizes each roll completely before transferring to the next roll to prevent stub roll waste

MINIMIZES MAINTENANCE COSTS One full loading of the dispenser offers more than 2,000 11" towels so maintenance visits can be reduced by as much as 50%. Indicator lights show status of towel and batteries at a glance and servicing is simple

ADJUSTABLE SETTINGS Choose the optimal dispensing settings to conserve paper while meeting user needs. With two operational modes and variable sheet length, Alliance® can be configured to meet your location's specific needs

LOCKING COVER Prevents pilferage and waste
